Subject Index to Volume 17

B

Behavior analysis of cigarette smoking 140
Blocking and nonsimultaneous compounds: comparison of responding during compound conditioning and testing 16
Book Reviews
A Clinician's View of Neuromuscular Diseases, review of 170
Biological Aspects of Schizophrenia, review of 230
Emotional Stress and Arterial Hypertension–Review of Experimental Data, review of ... 53
Fundamentals to a Pharmacology of the Mind, review of 167
How to Tell the Birds from the Flowers and Other Wood Cuts, review of 169
Psychiatry and Psychology in the USSR, review of 54
Brain, association systems of, and programing of goal-directed behavior 1

C

Cigarette smoking, behavior analysis of 140
Conditioning, classic, necessary and sufficient factors in 215
compound, and testing, comparison of responding during 16
electrodermal, effects of hemispheric asymmetry on, in a dichotic listening paradigm 120
human, Pavlovian, direct and continuous measurement of relational learning in 69
Pavlovian cardiovascular, hippocampal lesions and 158
Cybernetic approach to the treatment of neurotic disorders 45

D

Defense reactions, species-specific, and avoidance learning 204
Dichotic listening paradigm, effects of hemispheric asymmetry on electrodermal conditioning in 120
Drug effects and neurochemical correlates, assessment of pointer dog behavior 84

E

Epilepsy, postmeningoencephalitic, retention of orienting reation habituation in patients with 9

F

Fourier analysis of covert speech behavior: a progress report 49

G

Galvanic skin response, on-line analysis of 89
Gantt, W. H., in memory of 109
scientific contributions of 111

H

Hypertension and duodenal ulcer, autonomic and psychologic correlates in 178

I

Insulin levels in monkeys anticipating feeding .. 80

L

Learning, associative, simple, roles of the qualities and locations of stimuli and responses in .. 129
avoidance, species-specific defense reactions and 204
relational, direct and continuous measurement of, in human Pavlovian conditioning 69
Learning and attention disorders, studies of nervous system sensitivity in children with ... 30

N

Nervous system sensitivity in children with learning and attention disorders 30
Neuroleptics, long-term effects of, on word associations 165

O

Orienting reaction habituation, retention of, in patients with postmeningoencephalitic epilepsy 9

P

Pavlovian Society, abstracts of the annual meeting 95
early history of 171
news and notes from 107
Plasma glucose and insulin levels in monkeys anticipating feeding 80
Pointer dog behavior, assessment of, drug effects and neurochemical correlates 84
Programing of goal-directed behavior and association systems of the brain 1
Psychiatry, prophylactic 115

Q

Quality–location hypothesis, roles of the qualities and locations of stimuli and responses in simple associative learning 129

R

Reading-disabled children, autonomic responsivity during visual search of hyperactive and 150
Reflex action, patterns of, their autonomic components, and their behavioral significance .. 55
Responsivity, autonomic, during visual search of hyperactive and reading-disabled children .. 150
"Retrospection hypothesis," a test of, using a CER procedure with rats 62

S

Schizophrenia and related disorders, cognitive processes in, experimental studies in the USSR 188
Speech behavior, covert, Fourier analysis of ... 49

T

Taub, Dr. Edward, open letter to 106

U

Ulcer, duodenal, autonomic and psychologic correlates in hypertension and 178
Ulcers, activity-stress, in rats, adaptation effects on 42

W

Word associations, long-term effects of neuroleptics on 165
